About

Full Stack Developer focused on NestJS, TypeScript, and REST APIs. Experience with SQL/NoSQL databases, JWT authentication, and security fundamentals. Also builds web (React) and mobile apps (React Native, Flutter). Secondary knowledge in Java and Spring Boot. Seeking my first professional opportunity as a backend developer.

Skills

Backend: NestJS, TypeScript, REST APIs, JWT Authentication, SQL (MySQL / PostgreSQL), MongoDB

Frontend and mobile: React, React Native / Expo, Flutter, Dart, TypeScript

Secondary knowledge: Java, Spring Boot

Tools and practices: Git / GitHub, Swagger / OpenAPI, Jest, Docker (basic), Clean Code Fundamentals

Languages: Spanish (native), English (A2 - Lower intermediate)

Projects

Evangelho Diário

- Built the first version of a Flutter app (iOS/Android) for daily gospel, prayers, and rosary, and maintained/evolved it in production.
- Migrated persistence from Firestore to MySQL; local environment with Docker and .env-based configuration.
- Feature-first architecture, Firebase Analytics integration, and store release / build stabilization.

Congresso Terciarios

- Flutter QR attendance app with bidirectional MySQL sync, offline-first architecture (Hive), and MySQL 8 infrastructure via Docker Compose.
- Hybrid sync: auto-sync after scan/reconnect, periodic foreground sync, and Workmanager in background.
- Schema, event seed, and participant import from CSV.

Auto-Contact

- Android app (React Native / Expo) that consumes a REST API with sequential pagination, deduplication, and contact sync to the device address book.
- Modular architecture with composite hooks; fail-fast error handling and AsyncStorage persistence.
- Multi-channel auto-sync (foreground, background, and on app resume); in-app settings, Jest tests, and EAS build.

Education

Bach- Computer Science Engineer, (Homologated in Spain)
elor University of Computer Sciences

Havana, Cuba
 Sept 2017 – Nov 2022

Certificates

Udemy: Nest: Desarrollo backend escalable con Node (Jun 2026) · React Native CLI: Aplicaciones para iOS y Android (Apr 2026) · Microservicios y APIs REST con Spring Boot, OAuth2 y Docker (Mar 2026)

Experience

Focs d'Artifici Camp del Turia S.A.U, Pyrotechnic Operator

Casinos, Valencia, Spain

- Safe preparation and assembly of pyrotechnic products, following safety protocols and inventory management.

Aug 2023 – present
